Nervous Prostration

is frequently so sudden that the person loses the use of the limbs, in fact, for a while they appear para- (lyzed. This utter giving out of the whole body at once is so alarming that the patient sometimes sinks into lethargy from shock. Something has to be done at once.

Pabst Malt Exhac The Best Tonic

is an instant invaluable remedy for all cases of nervous prostration. It requires no help for its digestion, immediately tones up the nerves, counteracts the sinking and faintness and warms the whole system, creating renewed action of the heart, sending fresh pulses of blood to the brain and putting the sufferer into a condition of readiness to begin once more on a better foundation.
